Declaration of Conformity

To Whom It May Concern:

We, the manufacturer/supplier declare that the battery products:

Brand Name/Trade Marks: DURACELL® primary lithium manganese dioxide batteries
Size/Designations: CR-V3; DL1/3N; DL 2/3 (DL2/3A); 123; DL123(DL123A); DL223 (DL223A); DL234; DL 245; DL323 (DL323A); DL2CR2; DL123; PX28L; **Coin cells:** DL 1220; DL1025, DL1616; DL1620; DL2016; DL2025; DL2032; DL2325, DL2430; DL2450; **Ultra Lithium:** AA (LF1500/FR6)

Are herewith confirmed to comply with the requirements set forth in:

ANSI C-18.3M, Part 1-2013 Portable lithium primary batteries – General Specifications

ANSI C-18.3M, Part 2-2011 Portable lithium primary batteries – Safety Standard

IEC 60086-1:2011 Primary batteries – Part 1: General

IEC 60086-2:2011 Primary batteries – Part 2: Physical and Electrical Specifications

IEC 60086-3:2011 Primary batteries – Part 3: Watch Batteries

IEC 60086-4:2014 Safety of lithium Batteries

UL 1642:2012 Ed.5 Lithium Batteries

UN/DOT 38.3 – UN Manual of Tests & Criteria, Part III, Sub-Section 38.3 lithium batteries

and comply with the substance restriction limits set forth in the **EU Battery Directive 2006/66 and Amendment 2013/56/EU** and contains less <0.0005% mercury, <0.0020% cadmium and <0.0040% lead. Therefore, the chemical symbols Hg, Cd and Pb are **not** required to be marked below the separate collection symbol.

Batteries are considered articles under the **EC REACH Regulation (EC1907/2006)** and not subject to the REACH registration requirements. Based on communication with our suppliers, Duracell lithium primary batteries contain >0.1% w/w 1,2-Dimethoxyethane (EGDME), EINEC 203-794-9, per the SVHC Candidate List update of June 18, 2012. The SVHC Candidate List was updated on December 17, 2014 and contains 161 substances. Based on communication with our suppliers, Duracell lithium primary batteries are not known to contain at >0.1% any of the substances subsequently added to the SVHC list other than aforementioned EGDME.

Batteries are not regulated under the **EU RoHS Directive 2011/65/EU repeals 2002/95/EC**. Under the EU Battery Directive, the limits for mercury, cadmium and lead are more restrictive than the RoHS limits. Duracell lithium manganese dioxide batteries do not contain any RoHS substances.

Sincerely,

Steve Benoit
